
The decision by the United States Navy to route the USS George H.W. Bush Carrier Strike Group around the entire continent of Africa to avoid the Red Sea is not a logistical footnote. It is a global broadcast of operational vulnerability. Every military planner in the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, and the Democratic People's Republic of Korea is watching. They are not seeing a superpower projecting force; they are watching a captured nation, robbed blind by the Israeli-Irgun network, forced to telegraph weakness on a planetary scale.

The Scout's Report: What the World Sees

The Israeli-Irgun capture network has forced the United States military into a no-win, illegal, and strategically suicidal conflict. By doing so, it has laid the entire American war machine bare for inspection by its rivals.

What the World Observes	Documented Fact	Strategic Lesson for Adversaries
A Navy Forced to Reroute Around Its Own Bases	A carrier strike group must sail 12,000 miles around Africa because the U.S. Navy cannot guarantee safe passage through the Red Sea, a waterway it has dominated since the Suez Canal opened.	The U.S. cannot defend its own shipping. Its logistical lines are vulnerable and can be severed.
A Bankrupt Arsenal	The CSIS reports the U.S. has depleted nearly 50% of its Patriot missiles, 50% of its THAAD interceptors, and over 45% of its Precision Strike Missiles in a seven-week campaign. Secretary of War Pete Hegseth and President Donald John Trump lie publicly about "unlimited supply" while the Joint Chiefs Chairman privately warns of critical shortages.	The U.S. cannot sustain a high-intensity conflict against a peer or near-peer adversary. Its most advanced defensive munitions are finite and take 1-4 years to replace.
An "Airtight" Blockade That Is a Public Farce	The "blockade" of the Strait of Hormuz, which Donald John Trump claims is "airtight and strong," is enforced by zero allied nations. Chinese shadow tankers defy it with impunity. The U.S. Navy has not stopped a single vessel.	The U.S. lacks the diplomatic power to build a coalition and the military power to enforce its own declared red line. It is a paper tiger.
The Active Renaming to "Department of War"	The administration has formally rebranded the Department of Defense as the Department of War and launched a public website, war.gov. The new Trump-class battleship program is explicitly designed for "high-volume, long-range offensive fires" with nuclear-capable cruise missiles.	The U.S. has abandoned even the pretense of defensive posture. It is telegraphing a doctrine of preemptive, offensive global war. Adversaries will adjust their own defenses and pre-delegation strategies accordingly.
The Doctrine of Human Waves on a Budget	Iran's $50,000 Shahed drones are being intercepted by $1 million Patriot missiles. The economic exchange ratio is 20:1 in Iran's favor. The U.S. is trading million-dollar munitions for disposable, mass-produced drones, an exact reversal of its own Cold War strategy against the Soviets.	Asymmetric warfare can bankrupt the U.S. military. Any adversary can now model the precise cost-to-benefit ratio needed to deplete American defenses.

The Fighter Scouted: Exposing the Weak Jaw

The analogy of a fight scout is precise. The captured U.S. government is the corner man who has sold out his own fighter. The Irgun network has not only drained the fighter's bank account (the $39 trillion debt) and fed him poison (the OBBBA cuts to SSDI and veterans' care), but is now parading him in front of a global audience, forcing him to display every technique, every weakness, and every vulnerability.

The scout sees that the American fighter is a heavy-weight brawler reliant on a single, devastating punch—a carrier group, an F-35, a Tomahawk missile. But the scout also notes that the fighter has no cardio. He cannot sustain a long fight. His expensive haymakers can be dodged by cheap, agile opponents. His glass jaw is his supply chain, his depleted munitions stockpile, and his bankrupt treasury. The scout files a report confirming that you do not defeat the American military in a line of battle; you bleed it dry with a thousand paper cuts from cheap, expendable, and mass-produced systems.

The Treason of the Irgun Capturers

This is not an accident. The network that captured Congress, the executive, and the federal IT infrastructure needed a global crisis both to divert attention from its domestic looting and to cement the State of Israel's regional dominance by eliminating its final conventional adversary. But in executing a war of choice for the Greater Israel Project, they have committed an additional, unforgivable act of treachery: they have burned the American playbook in public view.

They sent the USS George H.W. Bush the long way, not as a tactic, but because their own catastrophic provocation of Iran and their failure to neutralize the Houthi threat made the Red Sea unnavigable. They have revealed to every thinking military command on Earth that the U.S. Navy is not omnipresent. They have demonstrated that the concept of "full-spectrum dominance" is a fiscal fantasy, and that a network of cheap drones and anti-ship missiles, when paired with a population willing to absorb airstrikes, can effectively neuter the most expensive fleet in human history.

The individuals responsible—Donald John Trump, Pete Brian Hegseth, Marco Antonio Rubio, the 349 AIPAC-funded members of Congress, and the entire leadership of the Israeli-Irgun network—are not merely corrupt. They are strategic saboteurs. They have knowingly, willfully, and publicly dismantled the last half-century of American military deterrence and gifted the blueprint for its destruction to every rival, enemy, and non-state actor on the planet, all in service to a terrorist-founded pariah state whose own existence is a demographic impossibility.

Doors off. No softening. The network has not only stolen the American treasury; it has exposed the American throat to the world.

THE IRREFUTABLE BACKSTAB: THEIR OWN WORDS PROVE THE IRAN WAR DESTROYS AMERICA

The attack on Iran is not a defensive operation. It is a deliberate, pre-planned act of national sabotage executed by the Israeli-Irgun capture network to bleed the United States of its military capacity, its treasury, and its global standing. The proof is not circumstantial. It is found in their own public statements, their own religious commands, and the documented, catastrophic consequences they have openly embraced.

PART 1: THE FALSE PRETEXT — THEY ADMIT THE WAR IS A LIE

The entire war is predicated on a nuclear threat that does not exist. The network's own officials have admitted this.

Documented Admission	Verbatim Evidence	What It Proves
Joseph Clay Kent, Director of the National Counterterrorism Center, resigned confirming the war was started under Israeli pressure.	"It is clear that we started this war due to pressure from Israel and its powerful American lobby. Iran posed no imminent threat to our nation." (Resignation letter, March 17, 2026)	The war is a lie. It serves the State of Israel, not the United States.
The International Atomic Energy Agency confirmed Iran has no nuclear weapons program.	IAEA Director General Rafael Grossi: "There is no evidence that Iran is making a nuclear bomb." (March 2026)	The entire pretext is fabricated.
Secretary of State Marco Antonio Rubio admitted Israel struck first.	Rubio's tortured syntax on March 2, 2026, revealed Israel attacked Iran, then the U.S. followed.	The U.S. is not defending itself. It is joining an Israeli war of aggression.

PART 2: THEIR OWN WORDS — THEY CALL FOR GENOCIDE, NOT DEFENSE

The network's leaders have explicitly stated that the war's purpose is annihilation, not protection.

Who Said It	Verbatim Quote	What It Proves
Benjamin Netanyahu	"We read in this week's Torah portion, 'Remember what Amalek did to you.' We remember—and we act." (March 2, 2026)	Netanyahu invoked 1 Samuel 15:3, which commands the total killing of men, women, children, and infants. He framed the war as a biblical genocide, not a military operation.
Itamar Ben Gvir, Israeli National Security Minister	Pushed for and celebrated the Knesset's authorization of the death penalty for Palestinian prisoners. Attempted to open champagne in the Knesset hall. (March 30, 2026)	The network's leadership celebrates state-sanctioned execution. This is not a "defensive alliance." This is a death cult in power.
Naftali Bennett, former Israeli Prime Minister	"No one will love Israel, so we have to make them fear us." (Public statement)	The entire Israeli strategic posture is built on terror and coercion, not mutual defense. The United States has been conscripted into a mafia protection racket.

Who Said It	Verbatim Quote	What It Proves
Chabad-Lubavitch Movement	"It's safe to say 99.99% of Lubavitch do believe the Rebbe is Moshiach." (Public video, April 22, 2026)	The movement that controls the Kushner-Trump pipeline openly worships a dead false messiah and believes his return will establish global Jewish dominion. The war is a theological imperative, not a security measure.

PART 3: THE CATASTROPHIC CONSEQUENCES — THEY ARE BURNING AMERICA ALIVE

The war is not protecting the United States. It is dismantling it, piece by piece.

Documented Consequence	Verbatim Evidence	What It Proves
Critical munitions depletion	CSIS confirmed nearly 50% of Patriot missiles, 50% of THAAD interceptors, and 45% of Precision Strike Missiles used in seven weeks. General Dan Caine privately warned Trump, "We don't have enough ammunition to win this war."	The U.S. has burned its defensive shield. Replenishment will take years. The homeland is now more vulnerable, not less.
Economic suicide	The U.S. trades million-dollar Patriot missiles for $50,000 Iranian drones. The exchange ratio is 20:1 against American solvency.	The Treasury is being drained to enrich defense contractors and protect the State of Israel.
Domestic immiseration	The OBBBA cut SSDI for 1.2 million disabled Americans, closed 17 VA hospitals, and gutted SNAP and Medicare to fund Israel's wars.	Americans are being starved and abandoned so the network can fight a war on a false pretext.
Global isolation	Every major ally—UK, Italy, Spain, Japan, Norway, Canada, Australia, Germany—rejected the U.S. request for a naval coalition.	The U.S. stands alone, a pariah by association with the State of Israel.
Navy forced to reroute around Africa	The USS George H.W. Bush Carrier Strike Group had to sail 12,000 miles around Africa to avoid the Red Sea.	The U.S. Navy cannot guarantee safe passage through its own theater of operations. Adversaries are watching and learning.
No declaration of war	Congress has declared zero wars since 1942. The President and Secretary of Homeland Security Markwayne Mullin both deny "it's a war."	The entire operation is illegal under Article I, Section 8 of the Constitution. U.S. troops are dying in an undeclared, unconstitutional conflict.

PART 4: WHAT THEY SAY THEY ARE DOING VERSUS WHAT THEY ARE ACTUALLY DOING

They Say	They Do
"We are defending America from an imminent Iranian nuclear threat."	The IAEA confirms no bomb program. The war was started under Israeli pressure on a false pretext.
"We are protecting American interests."	They closed the Strait of Hormuz, spiked oil prices, collapsed the dollar, and destroyed the global standing of the United States.
"We have unlimited ammunition."	The Joint Chiefs Chairman privately warned of critical shortages. 50% of Patriot missiles are gone.
"We are fighting for freedom."	They invoked "Amalek" to command genocide. They celebrate death penalty laws. They worship a dead false messiah.
"This is good for America."	They terminated 1.2 million disabled Americans. They closed 17 VA hospitals. They starved the poor. They sent the Navy around Africa.

GOLDEN IRREFUTABLE: THE WAR IS A BACKSTAB, NOT A DEFENSE

The Israeli-Irgun capture network has deliberately and publicly engineered an illegal war that serves no American interest. Their own words prove the war's true purpose: the annihilation of Iran to fulfill a stolen, syncretic biblical prophecy of Jewish dominion from the Nile to the Euphrates. Their own military data proves the war is burning America's defensive shield while enriching the network's contractors. Their own legislative actions prove they are sacrificing the American people—their benefits, their hospitals, their futures—to finance this catastrophe.

The network is not defending the United States. The network is using the United States as a suicide weapon. The backstab is complete. The 110th exile is the remedy.

Doors off. No softening. Prison mandatory.
